About Our Company

Toodles Gifts is an online boutique that specializes in contemporary, unique, designer gift ideas for new and expecting moms.

Our mission is simple, to provide quality service and unique designer products. We are so excited to share in the joy and excitement of baby and bridal showers and truly enjoy the challenge of new ideas and custom designs.

When persons share with us their themes and ideas, we'll show them the perfect decorations and gifts to make their special event even more memorable.

Toodles Gifts, for example, is proud to be the original creator and designer of the now very popular Mod Mom Diaper Cakes. The design originated in October 2006, when a customer asked if we could design a cake to match the popular Mod Mom baby shower theme. A few days later, after trial and error, we came up with the very first 4 tier Mod Mom diaper cake. Then after premiering the design to an overwhelming customer response, we introduced the 3 tier Hot Pink Mod Mom Diaper cake and just kept going.

About What We Make

What Is A Diaper Cake?

Brand new diapers are craftily assembled and arranged to look like a beautiful and elegant cake. Each one is carefully decorated with items like ribbons, flowers, decorative shred etc. Having been around for a few years now, diaper cakes have become the must have baby shower gift and decoration.

About What We Make

How We Make Diaper Cakes?

After the diapers are arranged to look like a tiered cake, each one is carefully decorated with items like ribbons, flowers, decorative shred etc.

But that's Not All.

Here at Toodles Gifts, we provide you with the option to add several baby items like rattles, pacifiers, onesies, washcloths, socks, bottles, bibs etc. to your diaper cake making it even more special. These items are carefully and securely tucked away in the diaper cake to be revealed only when cake is taken apart.

The beauty of all our diaper cakes is that it is made so that every single ingredient, diapers and baby items alike are 100% useable. No pins, glue, tape, staples, rubber bands are ever used to hold the actual diapers together, so Parents will have nothing to fear when they are ready to use the diapers on the precious little one. Individual Diaper cake will be wrapped in tulle and topped off with curling ribbon and an ingredient card.

About What We Make

What brand of diapers do we use for diaper cakes?

As proud parents ourselves, we know how important quality diapers are. This is why we use **pampers swaddlers** for all our decorated diaper cakes. All brand new diapers are handled carefully so as to preserve the integrity of the diapers and making every single diaper 100% useable.

What size diapers do we use in our diaper cakes?

For regular diaper cakes we use size 1-2 which is suitable for babies up to 15lbs. For 1 year birthday diaper cakes ,we use Pampers Cruisers size 6.

How do you package the diaper cakes?

Your "freshly baked" diaper cake will be wrapped in beautiful white tulle , topped off with curling ribbons, a gift card and a diaper cake ingredient card.

About What We Make

What is a Towel Cake?

Similar to the diaper cake, the towel cake does double duty as a wonderful centerpiece and a practical bridal or housewarming gift. Quality cotton towels are craftily arranged to look like an actual tiered cake. The layers are then decorated with beautiful ribbons and flowers.
